EEN / EEEN : The role (purpose)

The purpose of the

Environmental Evaluators Network

The purpose of the EEN is to advance the field of environmental evaluation through more systematic and collective learning.

- committed to **understanding and improving** effectiveness and efficiency
- represents the environmental sector's **diversity of disciplines and organizations**
- working from **the local to global scale** in government agencies, non-profits, consulting organizations, foundations, and academic institutions.

EEEN The Forum : Role ?

Bring together practitioners and users of environmental evaluations at any level, from the global to the local, and facilitate them to share views, methods, knowledge and experiences about the practice, use, importance and future of environmental evaluation in their respective organisations, domains and disciplines

The Role of EEEN = do we succeed ?

- Which role = which objectives (**priorities**)?
- How to **realise** (a strategic plan)?
- **Concrete actions**, initiatives, …?
- **Who**, what structure ?
